## Press Release

### **Cadorath Leasing delivers a Bell 206L-3 to Macaluso & Associates**

Lafayette, Louisiana – Cadorath Leasing, a Subsidiary of Cadorath Aerospace, announced today it has delivered a Bell 206L-3 aircraft to Macaluso & Associates of Carlsbad, California.

Macaluso & Associates replaced its Bell 206 Jet Ranger with the Bell 206L-3 in an effort to support and enhance its executive aviation department which now boasts fixed-wing aircraft.

“The Bell 206L-3 meets our demands for corporate and executive operations with more lifting capacity, passenger seating and – as with all Bell products – excellent dependability. After searching our options for aircraft, we decided to go with Cadorath Leasing – it’s simply the most beautiful 206L-3 on the market. In addition, Cadorath Leasing has offered excellent support in transitioning this aircraft into our fleet,” says Todd Macaluso of Macaluso & Associates.

Cadorath Leasing provides aircraft brought up to like-new standards. The aircraft are fitted with new interiors, new paint, new wiring, new avionics packages and mid-time to new components.

Cadorath Leasing is structured to “dry lease” the helicopter for one to five year terms. They also offer an option to purchase on long-term leases. As the most proven safe and reliable single engine turbine helicopter on the market, the high-end, VIP-quality Bell 206L-3 helicopter (brokered through Meridian Helicopters, LLC) is the solution to many corporate requirements.

“Our greatest advantage at Cadorath is our relentless pursuit to deliver peace of mind to our customers. Simply put, we strive for nothing less than complete customer satisfaction,” says Cadorath Group president Gerry Cadorath.
