

The world's most innovative auger technology

UltraFlyte™ – Ask for it by name

Cadorath Uniflyte

- With 12 flight mills positioned in the heart of the agriculture community, Uniflyte has the **largest flight forming capacity in North America.**
- Uniflyte has been able to introduce new products and options that will **significantly reduce your cost and downtime.**
- After 35 years and 10 million miles of flighting formed, our experience and commitment to quality has allowed Uniflyte to become the **preferred supplier to more than 400 long-term customers.**

An auger is an auger but only UltraFlyte™:

- Moves 90 bushels more per hour compared to the competition.
- Provides for much better wear and over 50% longer life than the competition.
- Reduces the auger's cost per bushel.

Ask about our comprehensive list of Uniflyte products:
